A Wired World Company (TM)

FOR RELEASE: July 31, 2001

Charter Communications Extends Offer to HSA for Contracts  
and Associated Assets Serving Charter Customers

ST. LOUIS - Charter Communications, Inc. (Nasdaq:CHTR), one of the nation's largest broadband communications companies, today announced that it extended an offer to High Speed Access Corp. (Nasdaq:HSAC) to purchase the contracts and associated assets that serve Charter's customers. The offer includes all assets used in or necessary to perform the services provided under the Turnkey contract and Network Services Agreement for Charter cable systems, including the call center and network operations center in Louisville, KY, and all HSA-owned equipment in Charter headends and customer homes. The proposed purchase price for those contracts and assets is approximately \$73 million, consisting of cash and the assumption of certain liabilities, subject to certain adjustments. In addition, as part of the proposed transaction consideration, all of the shares of Series D preferred stock of HSA held by Charter and its affiliate, Vulcan Ventures Incorporated, would be cancelled.

As a result of this offer, Charter executives and board members who served on HSA's board have resigned from their positions with HSA. Jerry Kent, president and chief executive officer of Charter; Steve Silva, senior vice president - corporate development and technology of Charter; and William Savoy, director of Charter, resigned from HSA's board of directors.

Charter's offer has not been accepted by HSA and is subject to a number of conditions, including approval by the boards of directors of Charter and HSA, approval by the stockholders of HSA, third party consents, satisfactory completion of due diligence and negotiation of definitive agreements.

Merrill Lynch & Co. is advising Charter in this potential transaction.

#### About Charter Communications

With nearly 7 million customers in 40 states, Charter Communications, a Wired World Company(TM), is among the nation's largest broadband communications companies. Charter provides a full range of advanced broadband services to the home, including cable television on
